

Welcome to the "Isac Images MATTES and FRAMES" action set. (free for lovers of Photoshop).

#### Installing Your Photoshop Actions.

- 1: The Easy Method:  
Download the "Isac Images MATTES and FRAMES.zip" file from the Isac Images Web Site <https://www.isacimages.com>  
Save the .zip file to a folder on your hard drive and extract the files.  
Double-click the "Isac Images MATTES and FRAMES.atn" file to automatically load it into the Photoshop Actions Pallet.
- 2: If that doesn't work, you can install Photoshop actions via the **LOAD ACTIONS** command.  
Open Photoshop and make sure your ACTIONS Palette is visible by selecting:  
**WINDOW > Actions (Alt or Option +F9)** from the top menu bar.  
Click on the Actions Palette menu button (located in the top-right of the Actions Palette and select "**Load Actions**".  
Select the "Isac Images MATTES and FRAMES.atn" file from the list.

If all else fails, there are plenty of tutorials available on the internet.

**ACTIONS SUPPLIED in "Isac Images MATTES and FRAMES.atn"** (There are 9 actions in this set).

The Matte Board frames on their own look very authentic when printed and placed into a photo frame.

#### HOW TO USE the MATTE BOARD ACTIONS

##### **VERY IMPORTANT !!**

Your image must be sized between **3000 pixels** and **5000 pixels** on the longest side.

**THE IMAGE RESOLUTION MUST BE "72 PIXELS per INCH" (PPI).**

The Matte Board frames and Black Gallery frame actions work with portrait or landscape orientation.

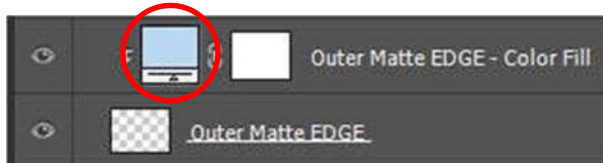

The Isac Images **QUICK Single Matte** action, uses **WHITE** as the matte board colour.

Before running the **QUICK Double Matte** action, the **INNER** matte will be the selected **Foreground** colour and the **OUTER** matte will be the selected **Background** colour.

If you no longer need the message pop-ups, they can be deleted or unchecked without affecting the action.

#### **SINGLE & DOUBLE MATTE (Coloured) ACTIONS:**

The colours of the matte boards and matte board edges can be changed by Double-Clicking on the **COLOR FILL** layer thumbnails.

The textures can be changed by selecting the **Matte TEXTURE** layer and on the top menu, click **Filter > Filter Gallery**.

All other layers can be changed to customise the look of the mattes.

See the accompanying file "**Isac Images Wooden-Frame-INSTRUCTIONS.PDF**" for details on how to use the Wooden Frames actions.

***Thanks for using Isac Images actions !***
